## HAYWARD SHERIFF'S OFFICE REMAINS CONTROL CENTER FOR WASHINGTON TOWNSHIP

CENTERVILLE — The second meeting of the Washington Township Coordinating committee of the Alameda County Council of Defense was held last Friday evening in the justice courtroom here with Chairman F. T. Dusterberry in charge, and some 14 committee chairmen present.

County Chairman Ralph Hoyt was present and "steered" the committee in its work. He said that a central headquarters could be set up in the high school but that it was not necessary to maintain a file there of all individual workers. It was up to the chairman to know only the heads of his various services, these heads to be familiar with their own personnel.

In the event of a disaster somewhere in the Township the district warden in charge where the incident occurred would report to the Sheriff's office in Hayward who would issue the necessary control orders to Mr. Dusterberry who would notify the chairmen of the departments concerned, he said.

Mrs. Josephine Morris, home economics teacher at Washington High school reported that a Township canteen service was started at an organization meeting held in the Niles school on March 12. A survey had revealed the Niles school cafeteria could feed 250 persons, refugees or otherwise, per hour; the Irvington school 250, and the high school cafeteria, 1000 persons per hour, with the help of P. T. A. members. Assisting Mrs. Morris are Mrs. C. E. Anderson and Mrs. Peixotto of Centerville, Mrs. Catherine Parry of Niles and Mrs. Olace of Irvington.

She was asked to confer with Mr. J. Silva of Newark, chairman of staple food supplies, to learn how much flour local stores and bakeries kept on hand; how many loaves per day Township bakeries could produce in the event transportation to outside points was cut off; and to draw up a list of staple supplies within the Township which could be used for public feeding in case of a disaster. Mr. Dusterberry said the Red Cross would pay the bill for public feeding for a limited time and requested Mr. Silva to make a survey of the daily output of local dairies.

Fred Rogers of Centerville, Township chairman of fire departments said extra men had been added to several of the volunteer departments, and that two men were now on duty all night at the Centerville fire house. He said first aid instruction for firemen was to be undertaken as well as for Air Raid Wardens.

### — Portable Kits Here

Ray Truscott of Newark, Township first aid chairman said portable first aid kits of large capacity had been installed in the Newark and Centerville firehouses, which could be moved for use at the scenes of disasters. He said a first aid class would be held at the Newark school Tuesday night at 7 o'clock.

Mrs. Edna Ebricht, Township chairman of registered nurses appointed Mrs. Ethel Grau as her alternate and reported on the progress made both by registered and volunteer home nurses. Following considerable discussion as to when and where the nurses went to work and where and how the first aiders functioned during or after a disaster, Mr. Dusterberry proposed that the doctors, nurses and first aiders meet at Hayward at an early date to hear County Doctor Dorothy Allen lay out the plan of interlacing functioning of the three groups.

L. W. Musick of Decoto, chairman of public information bureaus said that arrangements had been made for such bureaus in each elementary schoolhouse.

It was pointed out that actual first aid could be given during bombings within fire houses which had blackout rooms. Mr. Hoyt said the use of screened flashlights was permissible at the scene of action.

### — Fires Provide Light

Discussing how nurses or first

aiders could see to work in the field during a disaster Deputy Sheriff Peter Starasnic pointed out that bombings make fires and fires make light, permitting rescuers to work and vehicles to run without the use of other lighting.

Vice-chairman Leon Solon of Niles, Township chairman of light transportation said he had made a complete Township survey of station wagons, light delivery and panel trucks for ambulance or other first aid use in the field.

George Bonde of Niles, chairman of heavy trucks will have a list of all heavy trucks in the Township to present to the chairman this week.

A. J. Petsche, Red Cross chairman of utilities said the P. G. & E. had prepared and schooled its managers and crews in what to do during any type of disaster, and had equipped its service vehicles with blackout lights.

Because of Good Friday occurring on the next meeting night, April 3, and to give the nurses and first aiders time to perfect their plans of operation the next meeting night was set for Friday, April 17.

Attending the meeting in addition to those named above were W. T. Lindsay, Township Chairman of messenger-service; Deputy Attorney Joe Schenone, M. P. Mathiesen and Walter Waynflete.

### GOVERNOR TO ENLIST 100,000 MEN IN MILITIA

SACRAMENTO — Governor Olson announced Saturday he was going ahead with organization of a reserve militia of 100,000 men to bolster the State Guard. The governor failed to state how the reserve would be organized, but he has previously announced he intended to license State militia rifle companies for home guard duty.

He has said he was ready to circumvent the restrictions of the current State Guard bill by making use of his power under the military code which empowers a chief executive to summon for military service, all able-bodied men between the ages of 18 and 45 years, who are not otherwise in service.

### EXPERT RIFLEMEN GLAD TO INSTRUCT LOCAL GROUPS

MISSION SAN JOSE — Members of the Tangle and Twist club's rifle team, many of them expert marksmen have offered to instruct any persons or groups in marksmanship and the use of military rifles. If a Home Guard company can be formed in the Township many of the club's members will be glad to serve as instructors, according to Marston Dassel, himself distinguished marksman, of Niles. The club recently purchased \$200 worth of Victory bonds.

### PERMITS GRANTED

### HAYWARD OFFICE READY TO HELP EVACUEES SELL

HAYWARD — Field offices of the newly-created Wartime Farm Adjustment Program, created to see that full production continues on agricultural land vacated by Japanese and Japanese-Americans subject to evacuation orders, were in full operation today at the local U. S. Employment Service at 963-967 C Street, Hayward.

The new program being directed by the Farm Security Administration under orders from the Western Defense Command and Fourth Army, is intended to supervise the fair disposition of the land being voluntarily evacuated by Japanese and to aid qualified farmers in taking over the land and obtaining operating credit.

The local office, one of 60 established this week in California, Arizona, Washington and Oregon, is in charge of Mr. Waldo J. Blaisdell, former rural rehabilitation supervisor for the Farm Security Administration at Provo, Utah. The office is being operated in conjunction with "service centers," established by the Army's Wartime Civilian Control Administration to help Japanese and others voluntarily moving from prohibited military zones.

"My job is to contact Japanese farmers who propose to evacuate their farm land voluntarily, see that they get a fair disposition of their land or farming operations, and see that the land is continued in full production of vital war crops," Mr. Blaisdell said.

"Japanese who wish assistance in disposing of their land before voluntarily evacuating are urged to get in touch with me. Farmers who are able to grow the kind of crops already on the land, or who are willing to plant crops needed for war purposes, are also urged to come in," he said.

Sixteen officers of the Niles Rebekah Lodge attended a meeting Wednesday night at Livermore.

businesses at Niles: Harry Winter, Sanitary Dairy, Rev. Fred C. Hahn, Louis E. Silva and Vincent Russo; the F. E. Booth Co. and Washington High School at Centerville; the M & S Tile company and Zwissig Dairy at Decoto; and Raymond Benbow at Irvington.

### CURFEW HOURS FOR JAPANESE STARTS FRIDAY

#### REMOVAL OF JAPANESE TO CONTINUE AS RAPIDLY AS POSSIBLE

Moving swiftly in his mission of Japanese and alien enemy evacuation, Lieutenant General J. L. DeWitt, commanding the Western Defense Command and Fourth Army on TUESDAY issued Public Proclamation No. 3, establishing a curfew between 8 p. m. and 6 a. m. for all Japanese Americans and enemy aliens in critical military zones.

General DeWitt's proclamation also forbids all aliens and American born Japanese as well, the possession of firearms, war materials, bombs, explosives, short-wave radio receiving sets, radio transmitting sets, signalling devices, codes or ciphers or cameras. These were heretofore banned from possession of alien Japanese, German and Italians by the President in his enemy alien proclamations of December 7th and December 8th. None can travel more than five miles from their homes except for setting their affairs through the 64 Wartime Civil Control Administration offices.

Heavy penalties for absence from residences during curfew hours are prescribed in a bill just signed by President Roosevelt. General DeWitt has placed upon every citizen responsibility for reporting any violations.

#### — Curfew Starts Friday

"The curfew becomes effective Friday. It will be rigidly enforced," General DeWitt declared. "Military necessity dictates such action, and military necessity requires strictest enforcement. As a patriotic duty, each citizen is urged to report without delay to local police, sheriff's offices, highway patrol officers or the F. B. I. any violation he may observe. These agencies will immediately take action."

"Let me warn the affected aliens and Japanese-Americans that anything but strict compliance with this proclamation's provisions will bring immediate punishment. President Roosevelt last week ap-

proved a law enacted by the congress (public law 503, 77th Congress approved March 21, 1942) providing a penalty of \$5000 fine, or one year's imprisonment, or both for any failing to abide by any regulation or restriction applicable to military areas. The curfew is such a regulation.

"This is a war measure, and I warn again that swift justice will follow any violation, whether it involves disobedience to the curfew or the possession of contraband articles."

General DeWitt's curfew proclamation is part of a speedy sequence of events to evacuate Japanese from critical zones and areas. While it was being issued, 1000 Japanese and Japanese-Americans were voluntarily evacuating Los Angeles going to Manzanar, the Wartime Civil Control Administration's reception center in Owens Valley. At the Owens Valley reception center, hundreds of workmen were rushing additional housing, to prepare for a population of 10,000. Santa Anita Race Track, in Los Angeles, was designated as an assembly point in which thousands more affected persons can be temporarily sheltered awaiting transfer to reception centers. The movement from the designated areas and zones now is under way, and will be continuous.

#### — Japanese Must Go

"This is a final warning to the Japanese and Japanese-Americans within the areas to be evacuated that they must immediately cease wishful thinking that there will be exceptions or delays of departure until Fall," General DeWitt declared. But the Army seeks to allow these people to settle their property rights, dispose of business, arrange for handling of their crops and farms. It has sought to insure their protection from unscrupulous persons, trying to take advantage of their impending departure to defraud them. It has provided adequate shelter in the induction and reception camps.

"Let me make it perfectly clear to all concerned that evacuation has started and will continue until all Japanese and Japanese-Americans are removed from the critical areas and zones, and this as quickly as possible."

General DeWitt's proclamation declaring the curfew states that the five-mile travel limit imposed upon these people permits them to travel from their homes to the nearest WCCA service offices to make arrangements for their evacuation during the daylight hours prescribed in the curfew order.

### Rees Drug Store Designated Niles Telephone Agency

The closing of the Pacific Telephone and Telegraph company's office in Niles the first of this month need occasion no inconvenience to telephone patrons at Niles.

The Rees Drug store at 750 Main street has been designated as local representative for the telephone company. Here bills may be paid and receipts given by Mr. Rees—and while you are there you can look around and see what you need to buy in the line of drugs, toilet accessories, cosmetics, stationery, tobacco, etc.

An enclosed pay station has been installed in the front of the Rees Drug Store where persons not having a phone may place their messages, either local or long distance, and may have privacy while conversing.

Mr. Rees enjoys passing the time of day with his customers and always has a cheery word for everyone.

#### MOTOR TO WASHINGTON, D. C.

Bill Pessagno had a grand surprise when his father and mother, Mr. and Mrs. Joe Pessagno visited him at Camp. They were accompanied by Mr. and Mrs. Nick Pessagno and Gene Pessagno. They all enjoyed seeing their brother and enjoyed the trip. Bill has been stationed in Washington for the past six months.

## TOWNSHIP HOMES ASKED TO INSTALL FIRST AID KITS

Ray Truscott, Township chairman of First Aid, who is forming and assisting in instructing many classes throughout the Township, earnestly requests that every family will install and keep on hand the following first aid supplies, which may be purchased from any drug store for about \$2.50.

If any of these supplies are used meantime for ordinary family injuries Truscott says they should be replaced at once.

The last item on the list published below can be made by Boy Scouts, he says.

When a family home is equipped with the following first aid kit, for use by first aid teams in event of a public disaster, the householder should make a red cross sign on a board about eight inches each way, the cross painted red on a white field.

This sign should be placed in plain view outside every home so equipped, the minute any public emergency occurs. The first aid teams carry some supplies with them, but not enough for general use in case of wide-spread injuries.

Cut out the following list and paste it inside the cover of a box or other receptacle reserved especially for your First Aid Kit:

#### Your First Aid Kit

1. Sterile gauze compresses, 3 inch by 3 inch, one package.
2. Sterile gauze compresses in assorted sizes, one package.
3. Sterile gauze in package, about 1 sq. yard.
4. Picric acid gauze, one.
5. Roller bandages, 1 inch and 2 inch.
6. Tannic acid jelly, 5 per cent, one tube.
7. Mild Iodine, 2 per cent, one small bottle.
8. Aromatic spirits of Ammonia.
9. Scissors, one.
10. One bottle of castor oil or mineral oil, this must be sterile.
11. Triangular bandages, 6 or more.
12. Improvised fixed traction splints, one arm and one leg. These can be made from a board 1/2 inch thick, 4 inches wide, and 4 feet long for arm and 5 feet long for leg.

#### MOVE HEAD OFFICE

NEWARK — The head office of the James Graham Manufacturing company, which has been located in a San Francisco office building for the past 54 years was moved on Monday to the plant here, in order to permit the army to use its former quarters in San Francisco. The move affected Edward Hinchley, sales manager and his staff of 10 auditors, secretaries and typists.

#### COUNTY JOBS OPEN

CHRISTIAN SCIENCE  
CHURCHES

"Matter" was the subject of the  
Lesson-Sermon Sunday, March 22,  
in all Churches of Christ, Scientist,  
branches of The Mother Church,  
The First Church of Christ, Sci-  
entist, in Boston, Massachusetts.  
The Golden Text was: "The Fash-  
ion of this world passeth away,"  
(I Cor. 7: 31).

Other Bible citations included:  
"And a certain centurion's servant,  
who was dear unto him, was sick,  
and ready to die. And when he  
heard of Jesus, he sent unto him  
the elders of the Jews, beseeching  
him that he would come and heal  
his servant. . . Then Jesus went  
with them. And when he was now  
not far from the house, the cen-  
turion sent friends to him, saying  
unto him, Lord, trouble not thyself:  
for I am not worthy that thou  
shouldst enter under my roof: . .  
And they that were sent, returning  
to the house, found the servant  
whole that had been sick." (Luke  
7: 2, 3, 6, 10).

The Lesson-Sermon also includ-  
ed the following passages from the  
Christian Science textbook, "Sci-  
ence and Health with Key to the  
Scriptures" by Mary Baker Eddy:  
"Science can heal the sick, who  
are absent from their healers, as  
well as those present, since space  
is no obstacle to Mind. . . Is it not  
provable that Mind is not mortal  
and that matter has no sensation?  
Is it not equally true that matter  
does not appear in the spiritual  
understanding of being?" (pp. 179,  
211).

# POSTMASTERS ENJOY ITALIAN DINNER ON ST. PATRICK'S DAY

MISSION—The Alameda County Postmasters held their monthly meeting at Castro Villa in Hayward on Wednesday evening, March 18 with Mrs. Lois Justus of Mission San Jose as hostess. Instead of the regular business meeting with a speaker, a social St. Patrick's dinner dance and entertainment was the order of the evening. The table was decorated with daffodils as a center arrangement with green candles at each side. Green favors and mints were at each plate. The guests enjoyed a leisurely Italian dinner with dancing between courses.

Miss Bernice Carona of San Jose and Miss Ruth Justus, both accordion pupils of Dante Sinigiani of San Jose entertained the guests with a number of selections on the "Stomach Steinway." Those present were Miss Julia Ruschin, Newark, president of the association, Miss Mary Janeiro, Decoto, secretary, Stephen Graham, Oakland, Mr. and Mrs. Ford Samuel, Alameda, Mr. and Mrs. Joseph Brown, Warm Springs and guests, Mr. and Mrs. Joe Jason of Centerville, Mr. and Mrs. Manuel Joseph, Irvington, Edward Enos, Niles, Mrs. Tony Foster, wife of the Hayward postmaster, Manuel Lewis, Centerville, the hostess, Miss B. Carona and Miss Ruth Justus.

WEDGEWOOD GAS RANGES

No review of business, agricultural and industrial interests of the section would be complete without prominent mention of his company, which aids in no small measure the progress and prosperity of this section and is undoubtedly one of the most progressive and popular establishments in this district.

It is a well known fact that there is no one institution in the community that has met with greater favor with the public than this well known firm. By reason of the fact that the management has had wide experience in every feature of gas ranges and because of their knowledge of every branch of the trade this establishment has continued to witness the increase in the number of its patrons. Their products will be found in demand by all who insist on the best.

They deal on an extensive scale and their activity is conducive to the progress and expansion of the community in no small degree. It is important that we have conscientious firms like this one who aid in the reduction of prices of living for the people. Their policy along this line will be interesting for many business men as through this policy they have built up their large and growing business.

In making this Industrial Review, we are pleased to compliment the James Graham Mfg. company, located on Wells Ave. near Newark, 'phone 2141, and wish to direct your attention to this establishment as one of the reliable business institutions of the community which has added to the progress of this part of the state. — adv.

## CIVILIANS AT NEWARK GIVEN INSTRUCTIONS

NEWARK — About 200 people from the Newark community attended a public meeting Wednesday evening, March 18 at the Newark School auditorium consisting of motion pictures, talks on various phases of civilian defense, and first aid demonstrations performed by the Newark advanced first aid team.

A moving picture entitled, "Fighting the Fire Bomb," was presented by the Newark Fire Department to teach the public how to handle incendiary bombs.

Deputy Sheriff Pete Starasini, Coordinator of Civilian Defense for Washington Township stressed the point that every citizen should take some part in Civilian Defense.

Two other moving pictures entitled, "Lest We Forget," and "Life in the United States Navy" were also shown.

Ray Truscott of Newark, District First Aid chairman of Washington Township, representing the American Red Cross, gave some brief instructions on the care of an injured person, and suggested that the public get an approved list of first aid supplies in their home immediately, and post a small Red Cross sign in front of their home, in order that first aiders during an emergency will know where to go and who has the proper supplies. Mr. Truscott stated that this list of the supplies will be posted at the Newark postoffice, M. D. Silva's grocery store, Paul Gygas's grocery store, and Jolly's Drug Store.

Fire Chief Joseph E. Pashote of the Newark Fire Department who was in charge of the meeting explained to the public that during an air raid, if several fires should occur at once both the regular and auxiliary fire department will not be enough to control these fires, making it necessary that all civilians try to be firemen as well. The point is, if a small fire should start in your home, do not become hysterical and rush to a telephone to call the fire station; but try to control the fire yourself and have another person ready if a telephone call to the fire station should become necessary.

In order that civilians in Newark would know the Auxiliary firemen Chief Pashote introduced Louis Perry the captain of the Auxiliary Group. He also read the list of names of men belonging to this Auxiliary Group and the section which they patrol during an air raid.

## TOWNSHIP FIRST AID TEAMS BEING ORGANIZED

A Niles first aid team held its initial meeting Tuesday evening in the Niles Grammar School with Dr. T. C. Wilson in charge. Mrs. Irene Dominici is vice chairman of the group. A first aid kit is to be placed in the school for the use of the first aiders and meetings are to be held twice a month until the group completes its instructions.

Mrs. A. B. Leask is chairman of the Niles Volunteer Emergency Nurses group consisting of eight graduate nurses and lay assistants, all of whom will co-operate with the first aid team.

A first aid team at Centerville is headed by Frank Madruga. Ray Truscott of Newark, Township chairman, has established similar teams in Newark and Irvington and is organizing similar groups in Decoto, Alvarado, Alviso, Mission San Jose and Warm Springs, to function in an emergency.

## AID STAMP SALES

Secretary Morgenthau has given his consent to the 1200 package goods stores comprising the Northern California Retail Liquor Dealers association to sell defense stamps to their customers in their places of business.

## FIRST AID CLASS

NEWARK — Twenty five members of the department are taking a 20-hour first aid course at the Newark Fire Station commencing Tuesday evening, March 24. This class is conducted by Ray Truscott, district first aid chairman for Washington Township.

## CENTERVILLE ELEMENTARY SCHOOL NEWS

By Harold Alameda

The students have written kind deed poems and stories for the 16th annual essay contest sponsored by the Latham Foundation for the Promotion of Human Education.

The students are anxiously awaiting the announcement of prize winners in the contest. The following prizes will be awarded in defense stamps: three first prizes of three dollars (\$3.00), three second prizes of two dollars (\$2.00), three third prizes of one dollar (\$1.00), and a supreme prize of four dollars (\$4.00).

The students are participating in the seventeenth annual Poster Contest sponsored by the Latham Foundation for the Promotion of Human Education.

The awards will be given in defense stamps and a report of judging will be issued in May.

The Congress of the United States on May 18, 1928, authorized and requested that the President of the United States issue annually a proclamation setting apart May 1st as Child Health Day. President Roosevelt, in recognition of the vital importance of the health of the children to the strength of the nation, has designated the first day of May as Child Health Day.

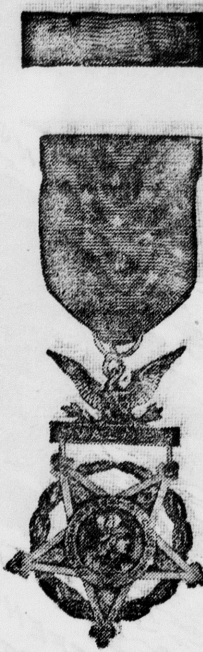

In accordance with the President's proclamation, a survey of the Centerville Elementary school was made. It was found that 219 children out of the 229 enrolled in the school were immunized for diphtheria. This was a percentage of 95 per cent.

## CONGRESSIONAL MEDAL OF HONOR

This, the highest decoration awarded by the U. S. Government, can be given to any officer or enlisted man of the United States Army who shall "in action involving actual conflict with an enemy distinguish himself conspicuously by his gallantry and intrepidity at the risk of his life, above and beyond the call to duty." It was first authorized by act of Congress in 1862, and presented "in the name of Congress"; hence the frequent allusion to it as the "Congressional Medal."

The present design was adopted in 1904. A bronze five-pointed star, surrounded by a laurel wreath in green enamel, suspended by two links from a bronze bar bearing the inscription "Valor," and surmounted by an eagle. In the center of the star is the head of Minerva surrounded by the inscription "United States of America." Each ray of the star bears an oak leaf in green enamel. On the reverse of the medal is engraved the name of the recipient. It may be worn with a neck band. The ribbon is of light blue watered silk. Midway

between the neckband and on the ribbon supporting the medal are 13 white stars arranged in the form of a triple chevron.

193 were vaccinated for smallpox. This was a percentage of 84 per cent.

The students are going to try to come as close to 100 per cent as they possibly can before May 1st, Child Health Day.

William Lawrence and wife of Hanford, brother of Mr. Lawrence; Lydia Borge, aunt of Mrs. Lawrence, and Mrs. Anna Law were the guests.

## DEFENSE LEARNERS

Defense Classes at Washington High school have been a great success. There has been a large attendance at all of them. The welding class under the supervision of Mr. Mette will turn out a number of lathe operators, drill press operators and assembly men by June.

Mrs. Coefield, the instructor of home nursing classes for the senior and junior girls has lately taught them how to make beds the uniform way, and the correct care of patients. The First Aid classes which are taught by Mrs. Benbow have also been reported as doing very well.

## NILES LOCALS

Miss Rosemary McDonald  
Correspondent

The Niles fire department had a workout of hydrants on G street in Niles Sunday forenoon. The big white pumper threw streams of water in many directions, much to the delight of the small boys present.

Walter Kleinsasser spent several days over the weekend in bed with an attack of tonsillitis.

If your eyes are sound it would be a pleasure to you to be told so after a searching examination, wouldn't it? But in case there should be some slight trouble or other which you may hardly have noticed, it would be worth a good deal to you to know that too, wouldn't it? Well, our services are at your command. P. C. Krogh, Opt. and Jeweler, 878 B street, Palmtag Bldg., Hayward. —adv.

The next meeting of the Niles Rebekah Lodge will be held on April 3 according to Sena Carr, Noble Grand. The meeting will start at 7:30 p. m. and after a short business session the lodge will go as a body to be the guests of the Alvarado Lodge. That evening Mrs. Ruth Mitchell will pay her last official visit to the lodges.

The Y. L. I. Past Presidents Club met on Tuesday evening at the home of Mrs. Madeline Santos in Centerville.

John Williamson and Bob Trembly spent Monday and Tuesday at the California Polytechnic College at San Luis Obispo.

The Toyon Berries are planning a Fashion Show and Tea to be given at the Washington Township Country Clubhouse on Saturday afternoon, April 25.

Mr. and Mrs. Charles Burr and son Benjamin of Palo Alto, Mr. and Mrs. Earl Segrest, Mr. and Mrs. P. Williams-Foote and daughter Susan of Berkeley, Mr. Burnett Ehrenpfort and daughter Joan of Oakland, Mr. and Mrs. Thomas Robbins and son Richard, Mrs. Dora M. Scudder and Mr. Len Osmond of Niles were dinner guests of Mr. and Mrs. J. A. McDonald on Sunday.

Mr. and Mrs. Bruce Handley were the dinner guests of Mr. and Mrs. Roland Bendel on Sunday. Mr. Handley, who is a nephew of Mrs. Bendel, is a member of the faculty of Kent University, Ohio and is at present studying music in San Francisco.

Mrs. Fred McGraw entertained several Niles ladies who are members of her bridge club at her home on Thursday.

The Toyon Berries met last Thursday at the home of Doris Alameda in Irvington.

Juanita Galvin, Harriett Dias, Avis Alberg and Dorothy Fae Franklin will leave Sunday for Fresno where they will attend the Rainbow Girls Convention.

Mr. and Mrs. William Driver of Alameda spent Sunday at the home of Mr. and Mrs. Fred Duffie.

Mr. and Mrs. Paul Offel left Sunday for San Francisco where they will spend a couple of days as the guests of Mr. and Mrs. Wesley Collins.

Mrs. Reginald Calhoun, Mrs. Hilliard Hale, Mrs. J. Alberg and Mrs. C. N. Myrick attended a P. T. A. council meeting at Livermore on Thursday.

Mr. and Mrs. William Tyson announce the birth of a son, William H. Tyson at the Alameda Sanitarium on Wednesday, March 18.

## LEADS IN BOWLING

NEWARK — The Newark Sportsmen bowling team is now leading in the 800 league at Hayward over the Hill Plasters of Hayward. Newark has 46 wins against 26 losses and the Hill Plasters have 47 wins against 44 losses. Stanley Majesky is still high point man for Newark.

I thank you for your good wishes, and extend to you and yours best personal regards.

Very sincerely yours,  
Albert E. Carter

## SOPHIE'S TAVERN THANKED FOR DONATING MONEY

IRVINGTON — A letter of appreciation was received recently by Mrs. Sophie Gwender who operates Sophie's Tavern here, from Dr. John F. Slavich, mayor of Oakland, thanking her for her recent gift of money sent to the Oakland Recreation department to provide recreation for men in uniform.

The welcome money had been collected over a period of time in a container placed in her place of business here.

## GARLAND ASKS FOR SPECIAL SESSION

Speaker Gordon Garland yesterday wrote Governor Olson urging him to call a special session of the Legislature at the earliest possible moment to consider:

1. Repeal of the State Income Tax and a reduction of all other forms of taxation;
  2. A full and complete review of the State Guard problem in the light of present conditions;
  3. Recognition of the meritorious work of the volunteer Air Raid Warden personnel by providing limited authority and needed equipment, and providing compensation insurance for Wardens;
  4. New legislation eliminating the red tape and excessive costs in connection with obtaining birth certificates;
  5. Strengthening California's anti-sabotage laws; and
  6. New legislation making military training compulsory in the State's high schools and colleges.
- Garland has been elected Speaker of the Assembly of the State Legislature on eight consecutive occasions and will be Olson's opponent for the Democratic nomination in the August primaries.

## ENROLL IN C. C. C.

California CCC Companies are now being brought up to full strength, and many openings are waiting to be filled with California enrollees who are anxious to do their share in this war effort. Selective Service referees are very often able to qualify for CCC. For full particulars or to file applications for enrollment, see the local agent who is R. H. Carter located at 129-12th St., Oakland, California.

## GOING TO FLORIDA

MISSION — Friends of Ernest Frei will be interested to learn that he has been transferred to Miami, Florida by the United Air Lines there as a crack mechanic. He has been in Alameda at the Treasure Island depot for a few years and is going along with five more of the boys from the island. They will go by plane all the way. His wife, the former Esther Jason of Centerville, and his young son, Ernest Fessler Frei will remain here at the home of his parents till later on, as Ernie may be sent to foreign ports on short notice. They leave on Friday, March 27.

Friends of Neddy Witherly will be interested to know that he leaves on or about the 28th of March to join Uncle Sam's army. He is the eldest son of Mrs. Cassie Witherly of Linda Vista Park.

### NAVY OF THE AIR

At San Diego this week huge American bombers are rolling off the first constantly moving assembly line ever used in building planes of their size. Bombers and flying boats rolling along like automobiles — each with the capacity of several freight cars, each giant of the air containing 106,000 parts, 600,000 rivets and 250,000 nuts and bolts!

America has one airplane capable of a sustained flight to Berlin and back with peak load. Stringing airports across Africa, U. S. aviation technicians are solving the war supply problem to the Middle East. By non-stop air transport America may soon solve the supply problem to Australia, to Cairo, to Russia — to any place in the world.

Incredibly accurate today seems the curious prediction made exactly 100 years ago by Tennyson in his poem "Locksley Hall":

"For I dipt into the future, far as human eye could see,  
Saw the Vision of the world, and all the wonder that would be;  
Saw the heavens fill with commerce, argosies of magic sails,  
Pilots of the purple twilight, dropping down with costly bales;  
Heard the heavens fill with shouting, and there rain'd a ghastly dew  
From the nations' airy navies grappling in the central blue;  
Far along the world-wide whisper of the southwind rushing warm,  
With the standards of the peoples plunging through the thunder-storm;  
Till the war-drum throbb'd no longer, and the battle-flags were furl'd,  
In the Parliament of Man, the Federation of the World."

A lifetime before the airplane was dreamed of, Tennyson envisioned vast commercial air traffic — a world war fought out in the sky — and a planet at last at peace through ideals of world-wide democracy.

May America's mighty Navy of the Air make that prophecy come true on a day earlier than an anxious world dares hope!

### THAT HERO (?) HITLER

The London Times has ferreted out the source of Hitler's private income and finds that he is the richest man in the world! His private income of over \$30,000,000 per year is greater than that of any other human on earth. And it is of course, tax free.

And how did he get all this money? By stealing control of all the book and magazine and two-thirds of the newspaper publishing facilities in Germany. He just swiped title to them in the name of "the government" — which is his own swinish self.

As further evidence of his filthy method he has spent one MILLION dollars building a great air raid shelter all for himself! What a skunk. Just to keep safe that worthless shell of a body which one day will die anyway.

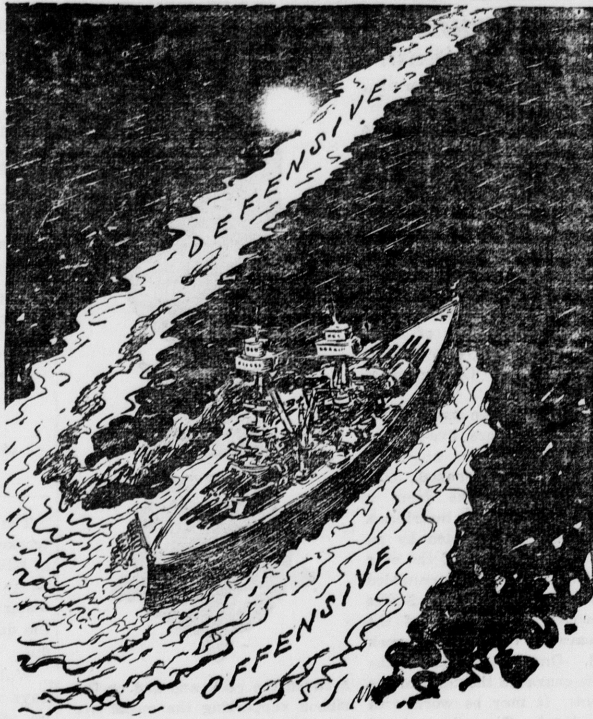

What a travesty on justice. While "his" people shiver and starve he revels in luxury when at home on his private estate at Berchtesgaden.

And this is the type of hog who wants to rule the earth. One day his dead clay will occupy a little wooden box just like the rest of us — and the sooner the better.

### OUR COURSE FROM NOW ON

### "BE A BOOSTER LIKE YOU USTER!"

The annual membership drive of the Niles Chamber of Commerce begins next week. Some few local business people have let their membership drop for one reason or another — which is bad for the town and bad for the merchant.

Pulling together we can work wonders. At a time like this every shoulder must be put to the wheel, for in union there is strength.

During the past few months the Niles Chamber has accomplished two jobs of civic importance, which — had it done nothing else for the past year — alone would have justified its existence.

Securing a priority rating for portions of Washington Township a few months ago has made immediately possible the development of the Canyon Heights Real Estate addition, where the construction of 25 new, low price homes for defense workers is now under way. F. H. A. consent could not have been secured had not Niles been allocated priority rating.

Other homes will follow in blocks of 25, until there are 125 new homes in this desirable tract. This influx of new residents will prove of great value to local merchants in the months to come.

The developers, Messrs. Bailey and Stenhammer, by the way, deserve a great deal of credit for their initiative and untiring effort.

The Chamber's second notable achievement, after three years of effort is the actual laying of the Niles storm drains now being completed under H street. It took a good deal of "pushing" to put this project over through the various channels of the board of supervisors, the county surveyor's office, the State Highway Department and the Southern Pacific Railway company.

Your little four bits a month membership dues by itself is a trifling sum, but your individual good will and energy, combined with the effort of your neighbor business people jointly serves to keep Niles a progressive community and a delightful place wherein to live.

Call the secretary, A. J. Petsche at Niles 4572 and tell him you want to "join up." Every business person's support and enthusiasm is definitely needed, today more than ever. We stay-at-homes have our job of work to do as well as our sons who have left us.

### NOW LET'S WIN THIS WAR!

The drag of visionary, wasteful "social-planning" upon the all-out war effort of the nation has finally begun to arouse apathetic congressmen as it already has aroused many alarmed laymen.

Ridiculously yet tragically entangling the nation's grim fight for life itself with social experimentation in "leisure activities" and other cultural folderol, the Government has actually created national directors with regional and community assistants for

each of the following activities: archery, badminton, bag punching, baseball, basket ball, bicycling, bob-sledding, billiards, bowling, boxing, camping, canoeing, codeball, fencing, field hockey, golf, handball, hiking, horseshoe pitching, ice hockey, ice skating, industrial activities, lacrosse, motor boating, non-competitive outdoor activities, outing clubs, paddle tennis, playgrounds, riding, rifling, roller skating, sandlot sports, skiing, Negro in sports, soccer, softball, speedball, squash racquets, swimming, table tennis, track and field, trapshooting, tug-of-war, volley ball, walking, weight lifting, wrestling and yachting.

Little wonder that even Senator Josh Lee of Oklahoma, through peacetime years one of the most ardent of the New Dealers, exclaimed before his colleagues: "A storm of indignation is rapidly rising in this country. When it hits Washington in all its force it will sweep away every obstacle to our war effort, and every person high or low who stands in its way. Our Government must be stripped immediately of non-essentials."

By all means — yes! Let's strip Government for action. Now let's win this war!

### WHAT HAS BECOME OF FATIMA?

Fatima was a dancing girl whose picture was once familiar to nearly every cigaret smoker in the United States. Fatima, depicted in one of her most bewitching poses, was the trademark on the cigarets that bore her name. The cigarets were the most widely advertised and the largest sellers among all brands in the United States.

What has become of Fatima? That is a question John B. Long, manager of the California Newspaper Publishers Association, is asking audiences he addresses throughout the state. Long first asks his listeners to produce any cigarets they happen to have with them. The result always is the same: Plenty of the brands made popular through newspaper advertising, but no Fatimas.

Long supplies his own answer as to the fate of Fatima. Years ago her manufacturers decided she had received sufficient momentum from advertising to travel on her own power. But it did not work out that way. Fatima did not remain the darling of the smokers who turned to new favorites, whose names soon replaced hers in the popular vocabulary. Now they reign in her place and have won the commercial preeminence she once enjoyed.

The example is only one of scores that might be mentioned. If you will search your memory you will recall many commodities that once were best known, but now are seldom mentioned — Force, Sapolio, Pearl-line, Gold Dust, Duke's Mixture — the list is a long one. Many of them stopped advertising during the earlier world war, and never regained the prestige that had been theirs. Some of them tried to come back but found the going too rough; other more far-sighted merchandisers had established their products.

This newspaper frankly admits a selfish interest in advertising. It is the lifeblood of newspapers, on which their welfare, their service to the public and their economic independence depend. But advertising also is the lifeblood of commerce and those who fail to keep their names and their products before the public frequently go into a business blackout. Not so many advertisers will allow themselves to drop out of the procession in the present abnormal conditions of wartime; the lesson of Fatima is easy to read. — Marysville Appeal-Democrat.

THE PRESIDENT asked Congress for more than \$8 Billion to expand the Army Air Force by purchase of 148,000 planes in 1942 and 1943. The Civil Aeronautics Administration said its standardization center in Houston, Texas will soon graduate a class of pilots every 10 days for the Army Ferrying Command. The Office of Education and CAA announced plans for a nation-wide Aviation Education Program in elementary and high-schools.

**VIEWS & OBSERVATIONS**

By The Editor

**WHAT A THRILL!** MacArthur  
stealing away under cover of night  
in a small, fast torpedo boat.  
Danger of discovery by the enemy  
at any moment. By his side his  
wife and boy.

An eagle spreads his wings and  
hovers over a new continent, lib-  
erated at last from the confinement  
of only a 20 mile front. Paean of  
welcome from a whole continent,  
MacArthur is in Australia. "The  
Philippines can be saved" says he.

Any darn fool knows that!

**WHILE BOO-HOOING** about the  
rubber shortage does it occur to  
anybody that Java and the Dutch  
East Indies can be recaptured?  
And not many months from now.  
Else why are we building up the  
greatest air fleet in the world?  
That's what its for: to enter upon  
an era of reconquest and the liber-  
ation of captured peoples.

The Japs aren't going to capture  
Australia. In fact, in a few months  
MacArthur and our growing forces  
'down under' will have driven  
the Japs plumb out of New Guinea,  
Timor and the Solomons. After  
that — the American naval crusade  
begins: recapturing one Pacific Is-  
land after another until we finally  
get to the Philippines.

The Japs have already "shot  
their load". They exposed every-  
thing they had in the first few  
months of the war. Their capacity  
for replacement is only eight per-  
cent of our own. Daily we grow  
stronger as they grow weaker —  
and right is on our side, not theirs.  
There is going to be a lot of  
glorious reading this summer as  
our naval and air fleets "sail on"  
upon their Crusade of Liberation.  
And the downtrodden peoples of  
the invaded nations will rise up to  
fight with their liberators and  
throw off the shackles of the  
brown comers.

Else why are we a Free Peoples  
except that we shall share our  
freedom with others? Free Peoples  
in a Free World — that is Amer-  
ica's manifest destiny.

The Japanese maritime losses are  
now so great that even the per-  
verted German press remarks on  
it in this, only the fourth month  
of the war.

**THE DOUGHTY** Russians are  
not standing still long enough to  
permit the nazis to establish a  
western front for their much-tout-  
ed spring offensive. Alas, poor  
Adolph, the Soviet know you well!  
It's slightly funny. Can you take  
a joke, Adolph? You're the joke:  
take yourself, for instance . . . but  
just for an instant!

**WHAT A difference** between  
this war and the last: in the last  
war the Western Front stayed put

in France—stalemated by trenches  
and cooties for four long, bloody  
years. Bombing civilians was con-  
fined to a few Zeppelins.

In this war the eastern front has  
skipped clear across the Pacific in  
three short months: from Hong  
Kong to Manila, through Singa-  
pore and Java to Australia. Now  
we will fold the enemy back on  
himself and tie him in a bloody  
knot at Tokyo — and ultimately  
teach the Jap war "lords" that  
peace cannot be had with a sword.

This will be a glorious war be-  
fore we get through with it: men  
will regard serving in our Forces  
of Liberation as a glory and a  
privilege. New, bright pages are  
to be written in the Book of Time  
and that is America's place in the  
sun. America's sun does not have  
to rise because it has never set,  
although nine years of social ex-  
perimentation have somewhat  
dimmed the luster of its glory.

Now there will be blood upon  
the "rising sun" of little Japan's  
banner — for it cannot rise higher  
than its source, and its source is  
shintoism — ancestor worship —  
and its goddess is Ise, the sun-  
goddess.

We Christians yield homage to  
another Son, who rose once . . . and  
has never set His holy feet on this  
old earth since 29 A. D.

**FOR THE first time** in history  
a full-fledged American general is  
in command of Chinese troops.  
Stillwell is a good old American,  
middle-western name. It speaks of  
flashing guns and quick-triggered  
honor in the days when men were  
men.

The Chinese have always ab-  
sorbed their conquerors. With Chi-  
nese armies (armed with American  
weapons) to help absorb the shock  
of the fighting in Burma the  
storied Road to Mandalay can be  
kept free of defilement from the  
lowly Japanese feet, with Aus-  
tralians, British Imperials, the  
American Volunteer Group, the  
native Burmese to ward off the in-  
vading monster.

India may be saved — but the  
price is granting it full and free  
independence — like the United  
States granted autonomy to the  
Philippines, and the promise of  
independence in 1946.

Go thou, Britannia and do like-  
wise with India.

This is the era of re-conquest  
and Liberation.

**WE OLDSTERS** will register on  
on April 27, General Hershey says.  
And that's good, too. Every man,  
young and old — and probably  
women, too — will be given his  
place and a work to do for God and  
Uncle Sam in this Great War of  
Liberation.

Father Abraham fought to liber-  
ate the American slaves. We latter-  
day fathers and sons are fighting  
to liberate the good peoples of this  
good earth from the tyranny of  
slavery beneath nazi and nippon-  
knees' heels. And "heels" they are  
— well said!

**WHY DO** people universally submit  
to disease as though it were  
inevitable? Disease is not inevit-  
able: it can often be fought off.  
People should keep the ideal of  
health before them and fight to  
retain it.

Remember Jack Pershing—who  
fought off his heart trouble sev-  
eral years ago and used his WILL  
to live — and is still living. Doc-  
tors and drugs only prepare a  
patient for recovery: the will to  
recover is up to the patient him-  
self. Better yet: use your will not  
to submit to disease.

God made both health and  
disease: cleave to the one (health)  
and use the other (disease) de-  
spitefully. It can be done because  
it HAS been done!

**FORGET** Pearl Harbor and  
**REMEMBER** MacARTHUR!

**APRIL 27, Monday**, (which is  
U. S. Grant's birth anniversary) is  
the day we oldsters from 45 to 64  
years of age will sign up with  
Uncle Sam for assignment to fu-  
ture war duty.

One wonders what a man of 50  
with a family and a private busi-  
ness can do to help Uncle Sam?

Keep books, instruct in some line  
of war occupation, work with his  
hands in factories, or what?

Registration day for the 18 and  
19 year old youngsters has not yet  
been set.

**ADD STUPID** phrases: "near  
miss." If it was not a hit it was a  
full miss. If the projectile nearly  
hit the target it was a "near hit",  
not a "near miss." What's wrong  
with peoples' minds these days?

The Japs have reversed the odd  
phrase of the British: "too little  
and too late" into "too much and  
too soon." Yea, brother!

**PORT ARTHUR** started the  
Japanese on their world conquest  
saga many years ago. Now, when  
their ambition has reached a high  
peak, another Arthur looms men-  
acingly on the horizon. It is not a  
fort they can take in a surprise  
raid. It is merely one man with a  
Mac in front of the Arthur, and if  
we read the signs right, Japan will  
have a lot more difficulty with  
MacArthur than they did with  
Port Arthur in the Russian War.

After all, they can't pull any  
sneak on MacArthur. He knows  
what he's in Australia for. So do  
the Japanese. And we are firmly  
of the opinion that as Port Arthur  
was the beginning of a saga, Mac-  
Arthur will be the end of a dream  
that might have been, had not  
Pearl Harbor loomed so inoffen-  
sively on the horizon on a certain  
historic day in December. — Hay-  
ward Journal.

**THE NIPPONESE** only have a  
nip-on the Philippine Islands.  
American forces, unknown to the  
general public still control 60 per  
cent of its land surface, General  
MacArthur revealed recently in  
Australia.

**SUGAR GOES** off sale during  
the week April 28 to May 5, it was  
announced from Washington over  
the weekend. Wholesale users will  
register for rationing books at high  
schools throughout the nation on  
April 27 and 28.

The head of each family will  
register at grammar schools start-  
ing Monday, May 4 and ending on  
Thursday, May 7, according to  
present plans. Schools will have  
to be dismissed that week as it  
will be a full time job for all the  
teachers to take care of all the  
citizens of their school district who  
will have to register.

Meantime, Monday April 27 is  
the national R day for men aged  
from 45 to 64, inclusive.

Uncle Sam is going to know all  
his nephews by name before this  
war is over!

**HOORAY!** Some government  
agencies are now cutting the sheets  
of paper bearing their publicity to  
the exact size of the sheet occu-  
pied by mimeographed words. The  
saving of paper thus effected is  
enormous.

For instance, two paragraphs fill  
just one-quarter of a sheet of type-  
writer paper so the paper is  
trimmed to that size.

Washington has caught up with  
the war!

**NEXT ITEMS** on the rationing  
list will be shoes and razor blades,  
according to hints emanating from  
Washington. The domestic supply  
of leather is being heavily tapped  
by the army, and of course steel is  
always at a premium.

If the worst comes to worst men  
could let their whiskers grow, like  
most men did late last century —  
and wouldn't that make us popular  
with our women folk? (The answer  
is: NO!) Shaving, at best, is an  
infernal nuisance, and recurs as  
often as dishwashing for the house-  
wife.

**I HAVE** finally figured out what  
"n a z i" stands for: "national as-  
sociation of zany intellectuals."  
"Zaney" means batty screwy or  
haywire; slightly "barmy" up-  
stairs, or bats in the belfry.  
However defined, nazism is an  
unhealthy mental condition and we  
normal healthy Americans don't  
want any of it. Not any.

**IS UNCLE SAM** stepping on it?  
According to official releases re-  
ceived by this newspaper the ship-  
building program has been stepped  
up to 2,000 new ships in two years,  
or a total of 2,877 ships to be com-  
missioned by the end of next year.  
Elementary flight training will  
be given to 45,000 men a year in-  
stead of 25,000, and secondary  
courses will be given 30,000 men  
instead of 10,000. The Army now

has a force of "flying sergeants" in  
addition to the usual flying com-  
missioned officers.

The Army General Staff, which  
plans military operations, has been  
reduced from 500 officers to only  
98, in order to speed action.

Manufacture of bicycles has been  
ordered curtailed by the WPB.  
The "philosophy of scarcity"  
is now becoming a raw fact.

**THE PACIFIC** fleet — remem-  
ber? Well, part of that mysterious  
aggregation of floating power,  
split up into what is now called  
"task forces" late last month  
shelled Wake Island and destroyed  
a lot of aerial installations which  
the Skibbies are feverishly instal-  
ling. The hangars, runways, bar-  
racks etc. were a mess when our  
fleet and planes got through bomb-  
ing and shelling them. Our loss  
consisted of one plane.

On March 4 another unit of the  
Pacific fleet repeated the opera-  
tions at Marcus Island, only 990  
miles from TOKYO. The force  
met no resistance either by water  
or on air, handily wrecked every  
thing in sight, including three sea-  
planes on the water, at a cost to  
us of but one plane lost.

The mystery still persists as to  
where the mikado keeps his grand  
fleet . . . safe at home, no doubt and  
under the protection of shore bat-  
teries, like the Italians.

The day of reckoning has not  
yet come.

**ADD RATIONING:** bicycles and  
leather soles. New model bicycles  
will consist only of frames and  
wheels without any "gadgets" and  
as little metal as possible. They  
will weigh 15 pounds less than the  
usual bikes and will have WOOD-  
EN handlebars!

Eighty percent of leather for  
soleing shoes has been set aside  
for re-soleing soldiers' shoes, leav-  
ing only 20 percent for civilian  
use.

One can still go barefoot!

**SECRETARY KNOX** says that  
sinking of our ships in Atlantic  
Coast lanes is at the rate of 5 ships  
sunk per 1000 at sea. This is a  
very encouraging report. The  
papers only report the one ship  
which is sunk, not the 199 ships  
which complete their voyages safe-  
ly.

**THE WAR** Department said a  
series of "Army Hour" broadcasts  
every Sunday beginning April 5,  
3:30 to 4:30 p. m. EWT, over the  
NBC network will link men in the  
armed services fighting abroad  
with American firesides in this  
country. The programs will at-  
tempt to promote understanding of  
military and morale problems.  
They will mark the first time in

## VISIT NILES BULB SHOW FOR NEW IDEAS

By George C. Roeding, Jr., Pres.  
California Nursery Co.

If anyone in this part of California still doubts that spring has arrived he will be convinced by his first glance at the gardens of the Eleventh Annual Bulb Show at Niles, now in progress. Spring has set up a gorgeous display of color at the Bulb Show this week, combining blossoms of flowering peach and crabapple, spiraea, weeping cherry, tulips, daffodils, dutch iris and azaleas.

Speaking of azaleas, this is the season to select your favorite colors of kurume azaleas for pot plants and shady garden situation. The range of coloring is exciting and broad enough to suit the most exacting taste. We recommend that kurume azaleas be planted in pure moss and fertilized twice each growing season with a special fertilizer made for acid-soil loving plants. They grow beautifully in half shade or fully-shaded locations.

### — Source of Ideas

If you like flowering trees but find it difficult to choose spring bulbs to plant beneath them, you will find the Bulb Show a great source of ideas. If you want to plant flowering trees in your garden but find it difficult to choose the right variety, this is the opportunity to make your selection. The pure white double flowering peach is gorgeous now as well as double-pink Burbank. This is the variety producing tasty small peaches after the flowers are gone. The bi-colored flowers of the crabapple create striking effects and the most popular varieties are now at their best.

In recent years we have noticed a marked rise in the popularity of the Dutch Iris, one of spring's finest subjects for cut-flowers. If you have some in your garden this season, pick them just as the first spot of color shows in the bud. Yellow Queen will be at its best this week. Other varieties will come along in early April.

Daffodil fans who have been regular visitors each week since the beginning of the Bulb Show still have many charming novelties to see. In bloom this week is the beautiful Dick Wellband, free flowering incomparabilis. The flaming orange cup contrasts with a pure white perianth. A remarkable feature of this variety is that the brilliant cup intensifies rather than fades as it ages. Other novelty incomparabilis types of brilliant coloring in bloom now are Salembo whose extra broad white petals frame a large orange-yellow cup, and Maude Adams, with creamy white petals and flaring deep yellow cup tinted reddish orange at the margin. Pure white Thalia is choicest narcissi in the Triandrus hybrid bed now, competing with popular Pearly Queen.

Tulip enthusiasts will get a preview this week because some of the early Breeders are in bloom. Bronze Queen flaunts bronzy flowers on tall stems. Yellow Giant and Cardinal Manning offer pleasing contrasts to it. The Darwins will be represented by gorgeous red Allard Pierson.

### GOVERNOR'S CHOICE

Governor Dwight Griswold of Nebraska has chosen Clarke L. Wilson, Wakefield, Nebraska publisher as secretary of the Nebraska State Game Commission according to word sent this newspaper by Norman H. ### CHECK WHEN STARTING

An invariably sound precaution in good care of the car is to notice the oil gauge and ammeter every time the engine is started, states the National Automobile Club. An airplane pilot always checks the functioning of his engine through the instruments before taking-off. His example is a good one for the car owner.

### ARMY ORDERS

SPEED LIMIT OF  
40 MILES PER HOUR

Lieutenant General J. L. DeWitt, Commanding General, Western Defense Command and Fourth Army, today set a 40-mile per hour maximum speed limit for Army vehicles operating in the Western Theater of Operations.

In addition to setting the speed limit, the General declared that military drivers will obey all traffic regulations. To make doubly certain that the speed limit and traffic laws are complied with, the General made the senior passenger, officer or non-commissioned officer, in a vehicle and the driver jointly responsible for carrying out his instructions.

### CHEVROLET DEALERS PLANNING TO MEET PREVAILING CRISIS

A comprehensive picture of the retail automotive business in its "duration dress," presenting a cross-section of Chevrolet dealers' thinking on problems common to all auto dealers resulted from a series of 94 zone, regional and national dealer committee meetings beginning February 24 and concluding with a two-day final session in Detroit, March 16-17, William E. Holler, Chevrolet general sales manager, announced today.

In the face of stringent restrictions applying to the auto manufacturing business as the first wartime commercial "casualty," these meetings developed a compilation of immediate needs foreseen by the retailers so that they may remain the servant of the motorist. "Since early in 1937, regular dealer committee sessions have served an important liaison role linking Central Office with the more than 8,000 Chevrolet dealers," Mr. Holler said. "The continuity of this program has afforded us the most complete cumulative picture of retail problems and procedures in the industry. At no time in the history of the program have dealers faced such rigorous conditions as confront them today, and thus it follows that never before has Chevrolet had a chance to serve dealers at a time when its support and counsel are more necessary."

## Anzac Defenders

**MANNING AN OLD-FASHIONED** Lewis anti-aircraft machine gun, three Australian soldiers search the sky over tropical, heavily-bombed Fort Darwin, in Northern Australia. Port Darwin, only 400 miles south of the embattled Netherlands East Indies, is the last Southwest Pacific naval base which can be used by the United Nations for an offensive action against Japan. It is strongly held by Anzac troops and militia, but the Australians need reinforcements and a steady supply of new, up-to-date equipment to defend the port effectively against the expected Japanese onslaught.

### GORDON GARLAND WOULD REDUCE STATE SALES TAX

Gordon H. Garland, Speaker of the Assembly of the State Legislature, has announced he will be a candidate for the Democratic nomination for Governor of California at the primary election on August 25.

Assemblyman for the past six years from the 38th Assembly District, embracing Tulare and Kings Counties, Garland has been elected Speaker of the lower house of the Legislature eight consecutive times.

He declared that his appeal for nomination by his party "will be addressed to the overwhelming mass of voters who are sick and tired of extremists on both sides and who believe that the interests of minority pressure groups must be subordinated to the welfare of all our people."

Accusing the present administration of "incompetence, bungling and reckless waste of public funds and resources" Garland declared:

#### — Seeks Maximum Output

"Our 7,000,000 people have a job to do — a job which can be done effectively only under a truly representative economical administration, honest, competent and courageous — an administration which will inspire industry, agriculture and labor alike to work in harmony and wrest from our factories and our fields the maximum potential of production."

Garland stated frankly that if elected he will not seek a second term as Governor.

Asserting the need for maximum economy in State government, Garland announced he would recommend an immediate program of tax reduction, including repeal of the State income tax and a "substantial lowering" of the State sales tax.

He placed himself on record in favor of early completion and expansion of the Central Valley Water Project and the Colorado River Authority project, and declared he would urge an immediate re-examination of old-age pensions in the light of increased living costs.

#### — Advocates Secret Ballot

He advocated legislation extending to trade union members the secret ballot in labor votes, and said he would permit neither abridgment of the rights of labor "or toleration of unscrupulous leaders who seek to exploit the men and women of labor." He flatly condemned secret paroles to criminals and declared he would grant no paroles "to convicted murderers because of Communist Party pressure."

Other issues, he said, would be discussed during the campaign, adding that he would seek to remove the State Board of Education from political control; study the housing problem "with sympathy", and support measures to "remove the threat of sabotage by enemy aliens within our borders."

Garland, who is 43, resides at Woodlake, Tulare County, where he operates extensive farming properties. A graduate of the public schools of Los Angeles and San Bernardino Counties, he is married and the father of five children.

dren. He is a Mason, Elk, Moose, Eagle, Knight Templar and member of the Eastern Star. He is a member of the Board of Regents of the University of California.

### NILES CHAMBER TO BEGIN ITS MEMBER DRIVE

President T. C. Wilson directed at Monday's luncheon meeting of the Niles Chamber of Commerce at the City of Florence Restaurant that the annual membership drive be started at next Monday's meeting.

Secretary A. J. Petsche was directed to write California's four Congressmen expressing the Niles Chamber's opposition to changing the optional feature of filing joint or separate income tax returns by married couples. The option is still permitted in the six states which have community property laws, among which California is one.

H. F. Gray of the County Mosquito Abatement district was a guest at the luncheon.

### STATE FINANCES APPROACHING HEALTHY CONDITION

SACRAMENTO — State Controller Harry B. Riley reported in Sacramento today that State income exceeded expenditures by \$46,158,162 in the last eight months.

The general fund cash deficiency which reached a peak of \$82,000,000 in 1940, dropped to \$8,749,694 on February 28, Riley announced, a reduction of \$58,743,128 below that of a year ago.

Revenue in the eight months just ended soared to \$149,833,938, an increase of \$23,257,356 over that of the corresponding period last year the Controller said.

Expenditures dropped to \$117,090,721 for this fiscal year to date, a reduction of \$13,572,371 from those of a year ago.

With defense activities spurring retail business the sales tax poured \$96,754,603 into the treasury in the eight months, an increase of \$22,414,563 or 30 percent over that of the like period last fiscal year.
